ARTIST'S STATEMENT

Susan Heidi began drawing figurative works at age five – fascinated by the ability to create a likeness on paper, this quickly became a passion. The inspiration for her pin-up art is today's retro pinup movement which embraces the nostalgia of a bygone era and spices it up with a modern, take-charge attitude.

Susan is a self-taught artist working in watercolor, acrylic, or oil paints. Her aim is always to create an image that comes alive. Translucent skin tones are a trademark of her style. Susan's work is compared to that of the well known pinup masters. Her work has been exhibited by invitation with the top erotic artists from around the world and is collected in the United States and Europe.
